

## Financial and non-financial performance

## Key Performance Indicators

We want to enable a digital, inclusive and sustainable society. To underpin the delivery of our mission, we ensure that we operate in a responsible way. Acting lawfully and with integrity is critical to our long-term success.

Financial results summary<sup>1</sup>

|                                                              |    | 2026     | 2025     | 2024     |
|--------------------------------------------------------------|----|----------|----------|----------|
| Group revenue                                                | €m | 40,461   | 37,448   | 36,717   |
| Group service revenue                                        | €m | 33,480   | 30,758   | 29,912   |
| Operating profit/(loss)                                      | €m | 2,844    | (411)    | 3,665    |
| Adjusted EBITDAaL <sup>2</sup>                               | €m | 11,351   | 10,932   | 11,019   |
| Profit/(loss) for the financial year – continuing operations | €m | 59       | (3,724)  | 1,570    |
| Basic (loss)/earnings per share – continuing operations      | €c | (1.20)   | (15.86)  | 4.45     |
| Adjusted basic earnings per share <sup>2</sup>               | €c | 10.72    | 7.87     | 7.47     |
| Cash inflow from operating activities                        | €m | 14,291   | 15,373   | 16,557   |
| Adjusted free cash flow <sup>2</sup>                         | €m | 2,621    | 2,548    | 2,600    |
| Net debt <sup>2</sup>                                        | €m | (25,411) | (22,397) | (33,242) |
| Total dividends per share                                    | €c | 4.6125   | 4.5      | 9.0      |

## Non-financial KPIs

## Empowering People

|                                                                                 |          | 2026 | 2025 | 2024 |
|---------------------------------------------------------------------------------|----------|------|------|------|
| <b>Network coverage</b>                                                         |          |      |      |      |
| 5G population coverage (outdoor 3Mbps) – Europe                                 | %        | 78   | 75   | 71   |
| 4G population coverage (outdoor 1Mbps) – Africa                                 | %        | 78   | 76   | 74   |
| 4G population coverage (outdoor 1Mbps) – Türkiye                                | %        | 97   | 97   | 97   |
| <b>Smartphone penetration in Africa</b>                                         |          |      |      |      |
| Smartphone penetration                                                          | %        | 65   | 62   | –    |
| <b>Financial inclusion</b>                                                      |          |      |      |      |
| Customers connected to our financial inclusion services – Africa <sup>3,4</sup> | million  | 92.1 | 77.1 | 66.2 |
| <b>Our people</b>                                                               |          |      |      |      |
| Number of employees <sup>5</sup>                                                | thousand | 91   | 87   | 85   |
| Employee turnover rate (voluntary)                                              | %        | 7    | 8    | 9    |
| Women on the Board                                                              | %        | 54   | 38   | 42   |
| Women in management and senior leadership roles <sup>4</sup>                    | %        | 37   | 36   | 35   |
| Women as a percentage of employees                                              | %        | 40   | 39   | 39   |

## Notes:

- The results for the year ended 31 March 2026, and 31 March 2025, exclude Vodafone Spain and Vodafone Italy and therefore, except as otherwise described, the results for the year ended 31 March 2024 have been re-presented to reflect that.
- Non-GAAP measure. See page 226 for more information.
- Includes 100% of data relating to Safaricom.
- 2026 Assured by Ernst & Young – limited assurance under ISAE (UK) 3000 and ISA 3410.
- Further information on measurement definitions and calculations can be found at: [vodafone.com/esg-methodology](https://vodafone.com/esg-methodology).
- Information relating to prior years has been re-baselined to reflect the Vodafone UK merger with Three UK on 31 May 2025.
- Less than 0.2% of grid electricity used by Vodafone Group in FY26 is not matched with renewable sources. This is because in a small number of locations where we operate, there is no available renewable electricity purchasing mechanism and these locations are not grid-connected to any markets where such mechanisms are available.
- Includes hazardous waste from network equipment e-waste, and hazardous waste now includes batteries. Prior year figures have been restated.

## Non-financial KPIs

## Empowering People

|                                                             |   | 2026 | 2025 | 2024 |
|-------------------------------------------------------------|---|------|------|------|
| <b>Health &amp; safety</b>                                  |   |      |      |      |
| Number of lost-time incidents – employees and contractors   | # | 33   | 23   | 18   |
| Lost-time incident rate per 1,000 employees and contractors | # | 0.35 | 0.25 | –    |

Protecting the Planet<sup>6</sup>

|                                                                         |     | 2026  | 2025  | 2024  |
